CM 690 III White (CMS-693-WWN1-V2)

CM 690 III is a revolutionary update to the popular CM 690 II mid-towers. The exterior retains the curved metal mesh look the series is known for. The interior has been completely updated – the HDD/SSD combo cage can be switched between 3.5-inch or 2.5-inch drives by adjustable trays without using any screws. There's enough room for a 240mm liquid cooling radiator at the top or front, 120mm in the rear and supports up to nine fans, including three large 200mm fans for extreme airflow. And cleaning is hassle free thanks to the multiple dust filters at the bottom, top, and front.

Product Features

- Elegant, simple, full mesh front panel and top with large vents on the side panel for superior cooling
- Three designated places for radiators: up to 240mm on top and front; 120mm in rear
