

Product Highlights

Stream Your Media To Any TV, Instantly

Stream photos and video on your mobile device or network storage drive directly to your TV, no cables required!

Play Your Music Loud

Play music on your smartphone through your audio system or TV for everybody to hear, and control it wirelessly from the comfort of your couch

Your Computer Display On The Big Screen

Stream your PC display to any TV - perfect for giving presentations or just surfing the web

DSM-260

Features

Streaming

- Stream photos and videos from a mobile device, laptop, or network storage drive
- Stream music to your audio system
- Stream your mobile device¹ or PC display and audio to your TV

Connectivity

- HDMI out
- 3.5 mm A/V out
- Micro-USB port for power
- 802.11n wireless

Easy To Use

- Connects directly to your TV with an HDMI cable
- Powered by any USB port
- Stream media from your mobile devices using any DLNA-compatible app
- Configurable through your TV remote control via HDMI CEC, or through a mobile app

Standards

- DLNA support
- MirrorOP support
- Miracast support
- HDMI CEC support

Bring your media from the small screen to the big screen with the DSM-260. Just plug one into your TV, and you can stream your smartphone's media directly to your TV for instant playback. Sit back and view photos and videos taken with your smartphone on your TV, making it easy to share them with friends and family. Listen to your music with your audio system instead of through your smartphone's speakers. You can even mirror your PC or mobile device¹ display to your TV, making it perfect for giving presentations or just web browsing.

Free Your Media From Your Mobile Devices

The DSM-260 lets get more out of the media stored on your smartphone, tablet, or PC by giving you the ability to play it on your TV and audio system. There's no need to tether your laptop to your TV with a cable or transfer files off of your smartphone; you can just stream it wirelessly for instant playback, and you can control it all from the comfort of your couch. The DSM-260 gives you the freedom to enjoy your media the way you want.

Your PC or Mobile Device On Your TV, Wirelessly

With the DSM-260, you can do anything you do on your PC on your TV by streaming your PC or mobile device¹ display and audio to your TV. Watch movies, work on documents, or play games, all on the big screen. Also, with its easy setup and compact size, the DSM-260 is perfect for giving presentations at work or on the road.
