

## USB Drive | M181

M181 is a dual interface USB flash drive with OTG (On The Go) function. It uses USB standard connector and Type-C connector. USB Type-C is smaller than the standard USB port slot. Users are able to plug in their devices smoothly no matter which side is up or down. The M181 USB 3.2 OTG flash drive can be used with MacBook or Android mobile device with USB-C, so file transferring is easier and no longer restricted. The M181 uses COB (Chip On Board) assembly process to offer waterproof, dust-proof and shockproof functions. The rotating cap can also prevent damage of the USB Type-C connector.

## Main Feature

- USB Type-C OTG dual interface flash drive
- USB 3.2 Gen 1 high speed transfer
- 360° rotating cap design can prevent cap loss
- Triple protection: waterproof, dust-proof and shockproof

## Specification

Interface	USB 3.2 Gen1(USB 3.1/USB 3.0) <sup>[1]</sup> + USB Type-C
Capacity	16/32/64/128GB <sup>[2]</sup>
Color	Black
Weight	4g
Dimensions	33.2(L) x 12.4(W) x 8.2(H) mm
Performance	For PC : 16GB                      Read: 85MB/s Max Write: 10MB/s Max 32GB-128GB        Read: 90MB/s Max Write: 35MB/s Max <sup>[3]</sup>
Warranty	Lifetime warranty
